

# Program Guide

**TRAINING AND CERTIFICATION  
PARTNER PROGRAM**

# Introduction

**Unity Technologies is the creator of Unity, a flexible and high-performance end-to-end game development platform used to create rich, interactive VR, AR, 3D, and 2D experiences.**

Unity's powerful engine and editor serve as the foundation to develop beautiful games and apps and bring them to multiple platforms: mobile, home entertainment, personal computers, and embedded systems. Unity also offers solutions and services for creating games and connecting with audiences including Unity Asset Store, Cloud Build, Ads, and Everyplay. Unity serves over 1 million monthly active developers including publishers, independent studios, filmmakers, students and hobbyists globally.

**Unity Technologies is committed to enabling success for its customers.**

To expand the availability of expert training, support, and certification offerings to our community on a global scale, Unity Technologies is proud to offer the Unity Training and Certification Partner Program. The Program is intended to allow training centers, educational institutions, and reseller partners a means to benefit from the opportunity to tap into the growing market of Unity developers and to fulfill the community's demand for high-quality training and certification products.

# Overview

**The Unity Training and Certification Partner Program offers two levels of participation; prospective partner organizations may apply to become a Unity Authorized Training Center (UATC) or a Unity Authorized Certification Center (UACC).**

**Unity Authorized Training Centers (UATCs)** are training facilities that offers instructor-led, short-term courses and training on Unity software solutions and are authorized to deliver Unity Certification exams. To qualify as an UATC, training centers must employ Unity Certified instructors to teach Unity courses.

**A Unity Authorized Certification Center (UACC)** is a physical testing facility that is only authorized to deliver Unity Certification exams.

UATCs will have the advantage of offering training by an accredited Unity Certified instructor, the ability to issue co-branded Unity course completion certificates, eligibility for partner spotlight on Unity web properties, as well some additional promotional benefits above those offered to UACCs.

# Requirements

	UATC	UACC
Complete a Unity Training and Certification Partner application.	✓	✓
Execute a Training and Certification Partner Agreement and accept the Program Terms and Conditions.	✓	✓
Complete timely payment of Program fees per the Training and Certification Partner Agreement.	✓	✓
Designate a single point of contact for administrative and technical issues (upon acceptance into the Program).	✓	✓
Maintain adequate and current hardware systems as set forth in the Training and Certification Partner Agreement.	✓	✓
Represent Unity in accordance with the Terms and Conditions as set forth in the Training and Certification Partner Agreement.	✓	✓
Actively market Unity training courses and certification events at your expense, including updating your website to include information on Unity training (as applicable) or certification events and Partner branding.	✓	✓
Once accepted into the Program, employ only instructors who have obtained Unity Certification <sup>1</sup> to teach Unity courses, or ensure instructors obtain the certification by the date set forth in the Training and Certification Partner Agreement.	✓	
Use software licenses provided through the Program for educational purposes only, in accordance with the Terms and Conditions of the software license agreement.	✓	
Submit to an on-site review of all facilities and audits of classes and materials at the discretion of Unity Technologies. <sup>2</sup>	✓	
Offer a minimum number of two (2) Unity training courses per quarter.	✓	
Proctor a minimum of one (1) Unity Certification Exam per quarter.	✓	
Provide quarterly reporting on Unity training courses and certification events as set forth in the Training and Certification Partner Agreement.	✓	

1 Unity Training and Certification Partners must employ (full-time or contract) at least one instructor with a minimum of Unity Certified Developer certification.

2 For applicants with multiple locations, each location must meet the minimum standards established by Unity.

# Benefits

**UATC**   **UACC**

Unity-branded Partner plaque and banner artwork for display in Partner facility.	✓	✓
Consideration for feature on Unity web properties.	✓	

<sup>3</sup> Subject to availability - availability of Unity Field engineers varies by region.

# FAQs

---

## **How will applicants be notified if their application is accepted?**

A Unity Technologies representative will contact the prospective Unity Training and Certification Partner to notify them of the status of their application within 30 days. Prospective Partners wishing to inquire after the status of their application may reach out to the local Unity Sales Representative.

---

## **What are the criteria for Partner selection?**

Training and Certification Partners are selected based on their knowledge, focus on quality and commitment to providing the highest level of Unity training and certification to our customers around the world.

---

## **Are there any fees associated with the Unity Training and Certification Partner Program?**

There is an annual program fee for participation in the Unity Training and Certification Partner Program, which is based on the calendar year and varies by region. Other costs may include expenses associated with employee certification and courseware (if required) and specialized certification designations (when available) as well as fees for additional sites. For details on the applicable fees in your region, please contact your local Unity Sales Office.

---

## **Will Unity provide online registration for Partner courses or certification events?**

Unity will not offer online registration on behalf of Training and Certification Partners. Unity will provide listing of Partners in the Training and Certification Partner directory on the Unity website and link to the Partner's website, where users may register online or contact the Partner directly for course or registration information.

---

## **Can the Unity software licenses granted through the Unity Training and Certification Partner Program be used for commercial purposes?**

Unity software licenses granted under the Terms and Conditions of the Training and Certification Partner Program are for in-class instruction only. Under no circumstances shall the Partner use, or permit others to use, the licenses for any commercial purpose or for-profit enterprise of any kind.

---

## **Are Unity Authorized Training Centers required to use Unity Certification Courseware?**

There are significant advantages to using the Unity Courseware learning program to supplement curriculum, as students are able to view and learn hands-on through the Unity tutorials included, and the content maps directly to the Unity Certified Developer Exam. However, UATCs are not required to use Unity Courseware as part of their curriculum.
